

I am against allowing LPFM stations to take priority over current FM translator service. I listen to K-LOVE on 91.9 and am very concerned that this station not be taken off the air. I listen to this station everyday and received much benefit from it. There would be an adverse affect to the local community if this station were diplaced by a LPFM station. K-LOVE is a very uplifting and encouraging station that strongly stresses family values which seem to be fading from our society lately. In additon the station encourages high moral values which I see as something of great public interest in these times of rampant crime, disrespect of authority, and the general moral decay of the times.
